CROSS EYES STRAIGHTENED

By a New Painless Method. No Chloroform or Ether. No Bandages or Dark Room

MR. A. J. LEVICK, MT. VERNON, IIJA MR. A. J. LEVICK, MT. VERNON, IIJA T. people were aware of the evil effects of Cross Eyes, they would selze the first opportunity to eliminate this unsightly affliction. Even a slight cast in the eye greatly impairs the sight and causes serious nervous troubles, such as head aches, diaziness, nausea, St. Vitus dance, and even epilepsy of fits, all of which disappear when the eyes are straightened. Cross Eyes is a dangerous affliction, for when the eye is turned it affects the sight of the afflicted eye, as the light does not focus at the proper place, and from the want of use the eye gradually loses sight until it becomes absolutely useless, and then again it makes descenerates of the unfortunate ones, as upon the best authority it is known that the morality and mentality of the afflicted one is greatly decreased, as they must stand the "flings and slurs" of their playmates on account of their Cross Eyes, and they radurally become morbid and melanchy, losing, all interest in life. People hesitals to have this trouble remedied, for fear of having their eyes injured by an operation; some even think the eyes level to be removed to straighten them, which is agreat misrake. Dr. Harvey Moore was appointed by two Governors occupies in charge of the Missouri state school for the Bilad, but resigned, as his very extensive practice requires his entire time. He corrects Cross Eyes in one minutes time without rain, and he does not use chloroform, ether, bandages or confine the patient to a dark room, and he also improves the sight from one to five hundred per cent. The rapid and painless manner in which he straightens eyes seems almost impossible, yet it is a fact, attested by hundreds whose eyes have been straightened by him. Mr. A. J. Levick, a merchant of Mt. Vernon, Ill., son of Dr. Levick, was cross-eyed all his life. He was always afraid to have anything done to his eyes until he heard of Dr. J. Harvey Moore office and his new method and saw some of his patients. He then came to Dr.

OLD SOLDIERS MAKING FIGHT.

Former Pension Commissioner Tanner Says They Will Never Let Up Till Evans Retires-Brownlow Denies Report.

The Republic Bureau, 14th St. and Pennsylvania Ave Washington, June 22.—The growing bel allowed to retain his position at the head of the Pension Bureau has led to a re-

moval.

Corporal Tanner, who was formerly Pensioner Commissioner, was at the White House this morning, but did not discuss the matter of the appointment of Mr. Evans's successor with the President. He was, however, free in commenting upon the sub-

Ante-Election Promise. . "The old soldiers have by no means ceased their fight on Mr. Evans," said Mr. Tanner their fight on Mr. Evans," said Mr. Tanner, "and will not until he retires from the office. I do not know whether it is a fact that is known to the public or not, but it is true, nevertheless, that the National Republican Committee, prior to the last election, promised faithfully that Mr. Evans would be retired from the office of Pension Commissioner upon the beginning of President Mc-Kinley's second administration, in case of his re-election. We have that promise in black and white. It is in the form of a letter written by the National Committee to General Sickles, and he still has that communication.

"That is why I believe that Mr. Evans's successor will soon be appointed. I do not know who the man will be, but we hope that he will be more friendly to the old soldiers than the present Commissioner has been. At any rate, the National Committee made that definite promise and I believe it will be kept."

Tanner intimated, although he did not say so definitely, that it was because of this promise that many of the old soldiers were kept in line for the Republican ticket.

Representatives Brownlow and Gibson of Tennessee were at the White House this morning and had a talk with the President. It is understood that they are assisting in the attempt to secure Mr. Evans's official scalp, although they would not state what reason they have, if any.

It is believed Mr. Evans will be retired.

When asked if the report that the Evans and Brownlow factions in Tennessee had adjusted their differences and reached an amicable agreement, Mr. Gibson declared suphatically that such was not the case and that no truce had been declared. Mr. Brownlow said that he had not heard of any settlement outside of the newspaper reports.

Italian church will be held July 7, at which time the matter of the new building will be taken up.

The site purchased on Locust street is vacant at present and fronts 100 feet on Locust with a depth of 155 on Twenty-second street. Mrs. Sambucetti purchased the property from Samuel M. Dodd. The consideration is withheld for the present.

Early in the present year, negotiations were being conducted by Pather Cear Spigardi of the Italian church for several sites, the congregation having raised 30,000 for a new edifice. The old Second Baptist Church, Temple Isreal and the Christian Science Church on Pine atreet, near Beaumont, were all offered to him at varying figures, none of which were satisfactory. The money in hand by the congregation did not give then much opportunity to buy a site first and then erect a church, but this difficulty was removed by Mrs. Sambucetti, who volunteered three months ago to purchase a site for the church. There was some talk of purchasing a portion of the property owned by the Immazulate Conception Church on Locust and Jefferson avenue, but yesterday's transaction puts as end to the matter.

A Gold Mine That Will

A Few Facts About the Turnagain Arm Gold Mine of Southern Alaska.

This group of 371/2 claims, situated in the richest placer district in the Turnagain District, will pay,

First-Gold has been recovered in every portion of it where testings have been made, showing values ranging from 50 cents to \$22.00 per cubic yard.

Second-It will pay because we have already sent one of the most complete equipments up there ever sent into Alaska, consisting of two Giant Hydraulics, Giant Steam Crane, Pack Trains, Blacksmith Shops, etc., etc., and this equipment is now on the property and rapidly being installed.

Third-It will pay because the men at the head of it are men with splendid business records, conservative and honest in their dealings and full of energy and ambition to make this the greatest mining company in America.

There can be no question of the proposition being a paying one. What we desire is that you who may read this will make an investigation of the company and send for the 64-page illustrated prospectus,

Which tells the whole story of the mines, and what the stockholders' inspector found when he was sent out there to examine the property. We want to add to the equipment and send out six more Hydraulics this fall, buy a coasting steamer, plot and sell our Townsite, "Turnagain City," and be ready next spring to recover the gold in great quantities. "It is there," the inspector says in his report. "All it needs is the proper equipment to get it out."

The present series are all treasury shares and participate in all the earnings of the company. You should write for further particulars, for remember that nothing pays so well as a Gold Mine. You can sell its product in Sunrise City or at the Mints in this country at any time you choose. The supply is never equal to the demand.

And a letter of inquiry or a visit to one of our offices will bring full and complete details of the company's

You will find that this Gold Mine bids fair to rival the greatest mine in history. Nothing can prevent it from becoming a Gold Mine that will pay. (We will pay dividends this fall.)
